Angelo Augustine Capili

General Santos City, Philippines • +63 (927) 361-9577 • angeloaugustine.capili@gmail.com

PROFESSIONAL SUMMARY

IT graduate with hands-on experience in first-level technical support and troubleshooting for both internal and client-facing platforms. Proven track record resolving 50+ client-reported technical issues with a 96% resolution rate, joining client calls to diagnose and resolve issues in real time, and coordinating with cross-functional teams to keep operations running smoothly. Skilled in independent problem-solving, clear client communication, and scripting workflow automations to improve efficiency.

EXPERIENCE

Administrative Aide II | Office of the City Prosecutor — Gen. Santos City
Aug 2025 – Present

- Resolved technical issues for 20+ staff, independently diagnosing and troubleshooting hardware and software problems across desktops, laptops, printers, and mobile devices; all resolved without formal escalation.
- Set up, configured, and maintained office equipment and systems, working closely with internal teams (admin, legal, records) to troubleshoot issues promptly and minimize downtime.
- Automated a document renaming and organization workflow using a Python CLI script, cutting manual processing time by ~3.5 hours (from ~1.5 days to a fraction of a workday), demonstrating strong technical problem-solving and automation ability.

Funnel Developer / Automation Intern | PRIMOF — Iloilo City
Jan 2024 – Apr 2024

- Diagnosed and resolved 50+ client-reported technical issues across GoHighLevel and Zapier integrations, joining client calls to troubleshoot and resolve issues in real time and maintaining a 96% first-contact resolution rate.
- Logged, tracked, and followed up on support tickets within the organization's ticketing system, ensuring prompt, SLA-compliant resolution through clear and efficient client communication.
- Built and delivered 5+ automated sales funnel workflows using GoHighLevel and Zapier, resolving platform configuration issues that reduced client onboarding setup time and improved campaign efficiency.

EDUCATION

Bachelor of Science in Information Technology — Magna Cum Laude (1.41 GWA)
West Visayas State University, Iloilo City | Jun 2020 – Jun 2024
Thesis: Sugarcane Disease Detection Mobile Application using Image Recognition, Machine Learning, and Field Visualization.

CERTIFICATIONS
